

ARCUS

To Mrs. Evelyn Shoemaker, the '52 annual staff expresses the admiration of the student body and administrative staff. She is the English teacher whose vision, spirit, ability and determination has given to our school one of its richest treasures--the Arcus, annual of Wheatfield High. A book of memories, dreams, ideals, hopes--forged by the toil and perseverance of W.H.S. students under her expert guidance.

# INTRODUCTION

The Wheatfield High crew would be floundering in rough water were it not for the competence of the administrative staff. Through the years they have guided the school in its process of developing into an institution of which we can all be proud.

Mr. Huntington, the county superintendent, has the welfare of our school, as well as that of every other school in the district, to work for.

The Township trustee, Mr. Myers, is doing an excellent job in keeping Wheatfield High a top ranking high school.

The member better known by the students is Mr. Beck, our principal. Through his efforts the school is functioning smoothly and efficiently. When we students are confused or in doubt, Mr. Beck always appears on the scene to dispell our fears.

Mr. Shreve, the assistant principal, is also adding his contributions to make the staff an excellent and efficient machine.

## Seniors on Voyage

On September 2, 1948, we boarded the Freshman Liner for a four year journey on the Wheatfield Sea. The first day out we were very tense and nervous as we had to meet all our new shipmates consisting of fifty-five members.

In a few weeks a ship from the Sophomore Harbor met us and gave us the traditional initiation of the sea, which turned out to be fun. Nine months later we landed on a small island due to the excellent guiding of our Captain, Franklin Whitaker; First Mate, Tom Korniak; and Carol Hershman, our Secretary and Treasurer, who had her hands full keeping the ship's log. Christine Jensen and Virginia Powers were elected Senators to make the laws of the ship.

We pulled into the Sophomore Harbor on September 2, 1949. As the journey was getting tougher, some of our crew dropped out leaving us forty-four. The new officers this year were: Ruth Walker and Wetzel Howard, Senators; and Christine Jensen, Treasurer.

In November we met a Freshman ship and due to the tradition, we gave them their initiation.

As we wanted everyone to look well dressed when the Captain came around for inspection we ordered maroon and gray class sweaters.

We began our third year of the journey on September 2, 1950. A few crew members missed the boat at the harbor, leaving a crew of thirty-eight. Due to the dullness of the trip entertainment was needed. The crew did an excellent job putting on the play, "The Atomic Blonde".

As we were sure we would meet the Senior boat somewhere in the sea that spring, we decided to give a Hawaiian prom for them.

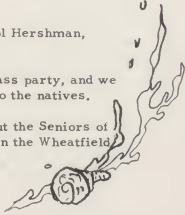

A visiting salesman came aboard from his ship one day, and before he left, we all ordered a class ring.

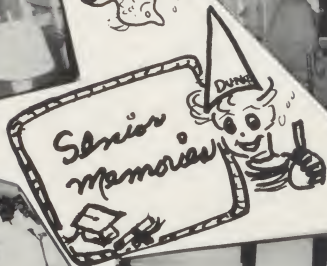

The change in officers this year was Christine Jensen, Treasurer; Ruth Walker, Secretary; and Carol Hershman, Senator.

September 2, 1951 was the final year of the voyage. Carol Hershman, Treasurer, was the only newly elected officer.

Many important events took place this year. We had a class party, and we also stopped off at an island for a short while to give a play to the natives.

Baccalaureate and Commencement came and have gone but the Seniors of this class will never forget the golden memories of the trip in the Wheatfield Sea.

We, the class of 1952, address this poem to all of you.

Franklin Whitaker, a great leader and man, for four years, led this clan.  
A four time president he has been so far, the only one to tie F.D.R.

John Feleki, our class clown, if given a chance, would tear the place down.  
To everyone he is funny. He's giving Bob Hope a run for his money.

Wetzel Howard-Einstein to you; 140 is his I.Q.  
His future lies in the stars. He'll be the first to reach Mars.

Donna Meyers, the cute blonde, with the gift of flirting, she'll go on.  
She finds gabbing to be easy-like my friend Irma she's very breezy.

Archie Snyder, although it seems strange, is a lot like Red Grange.  
Red hair and football talent; on the gridiron he's very gallant.

Carl Nagel with his singing and guitar, is getting to be quite a star.  
Bing Crosby, oh my land! Carl could beat him by quite a stand.

Walter Bukowski, an accordion, can play. He'll become famous some day.  
With practice he'll play like Contino, drawing crowds from New York to Reno.

Ruth Walker, who is going to be a nurse, cure those who are sick or worse.  
She'll be famous as Nightingale to those who are sick and ail.

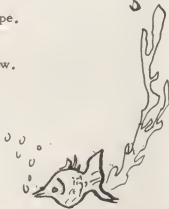

Janice Howard, who wants to be a beautician, will probably cause much competition.  
Out of business goes Bud Westmore. This'll make him sore!

Shirley Jones seems quiet and timid, but she got Dale Bailey-she did.  
She must have a split personality, like Jeckyl and Hyde is she.

Carol Hershman, we now announce, has more bounce to the ounce.  
She bubbles, wise-cracks, and is funny. Like Betty Hutton, she's a honey.

Dorothy Hershman, the quiet type, doesn't seem to carry a gripe.  
Very nice and very sweet, our Gal Sunday-you should meet.

Christine Jensen and her piano, most of the critics already know.  
When the contest will occur, Iturbi will try to play like her.

Mary Hetrick, who likes to cook, ought to write a book,  
Like Betty Crocker she can be, thinking up a tasty recipe.

Maxine Neely is classical and a sophisticate; la de da is her rate.  
Another Fay Emerson is she. This can't always be.

Jeannette Allen will spend her days, being Mrs. Terry Odle--for it pays.  
Like Portia, she'll be facing life, being Terry's loving wife.

Bernadine Girard and her money box is as sly as a fox.  
She manages to get the money that we owe, another G. Clark-we know.

James Brown, next on our list, sweet 18 and never been kissed.  
He'll grow up to be Casanova Brown. Red's the color he'll paint the town.

Melba Risner-full of fun, is like O'le Mr. Sun.  
Upon her face is never a frown, she would make a perfect clown.

Marilyn Thiesen is a wopper. She's gabbier than Hedda Hopper.  
All who know her will insist, she'd make a good columnist.

Betty Stowers plays the clarinet. She's bound to beat Artie Shaw yet.  
She probably won't have as many spouses as he had, but Betty don't feel too bad.

Gretchen Sprague, the run-around, has plenty of time to throw around.  
Like Barbara Hutton, the story goes--many friends and lots of clothes.

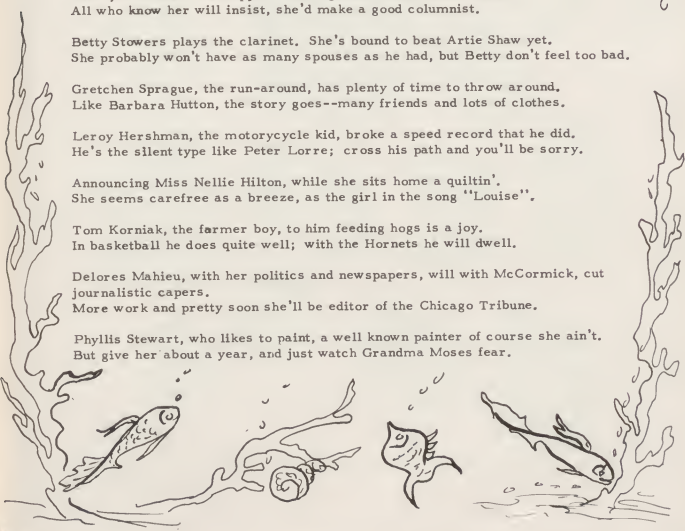

Leroy Hershman, the motorycycle kid, broke a speed record that he did.  
He's the silent type like Peter Lorre; cross his path and you'll be sorry.

Announcing Miss Nellie Hilton, while she sits home a quiltin'.  
She seems carefree as a breeze, as the girl in the song "Louise".

Tom Korniak, the farmer boy, to him feeding hogs is a joy.  
In basketball he does quite well; with the Hornets he will dwell.

Delores Mahieu, with her politics and newspapers, will with McCormick, cut  
journalistic capers.  
More work and pretty soon she'll be editor of the Chicago Tribune.

Phyllis Stewart, who likes to paint, a well known painter of course she ain't.  
But give her about a year, and just watch Grandma Moses fear.

## Class Prophecy

It is the summer of 1962. The place is New York port. There in the harbor is the Queen Mary. Many people are getting on the ship. Among them is Delores Mahieu who is taking a tour to various cities of the world. When Delores returns she plans to write about the different places and people she saw for the newspaper she is working on.

The boat leaves the harbor and heads south. In time it reaches Burmuda. It just so happens that Archie Snyder and his wife, the former Ruth Walker, are spending their second honeymoon there. After a week in Burmuda they, also, are going to do a bit of traveling.

When the Snyders met Delores it was quite a surprise to see their former classmate.

The ship continued on its journey until it reached Liverpool, England. At Liverpool Delores and the Snyders met Wetzel Howard and his wife. Wetzel was sent to England by the U. S. government to help rebuild the British economic system.

After a few pleasant days in England the ship left for Loire, France, where the former Christine Jensen and her husband, Bernard Mueller, are spending a month. Christine is a Powers model and is in France to see some of the latest French styles to take back to the U. S.

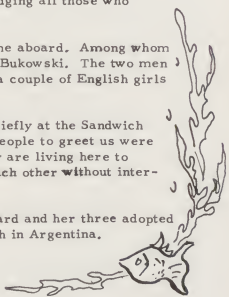

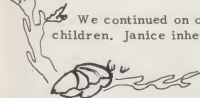

In La Coruna, Spain we found James Brown, who, while in the navy, discovered this lovely town and has decided to spend the rest of his life here.

While at Casablanca, Morocco we met another former classmate of ours, John Feleki, who is with the French Foreign Legion. After we talked awhile with him we discovered that he went there in hopes of dodging all those who remind him of his past. So we left.

When the ship docked at Capetown several people came aboard. Among whom were Mr. and Mrs. Carl Nagel and Mr. and Mrs. Walter Bukowski. The two men went to Africa on safari but ended up getting married to a couple of English girls from South Africa.

While crossing the Atlantic Ocean the boat stopped briefly at the Sandwich Islands. These are a sparsely settled group. The only people to greet us were Dale Bailey and his wife, the former Shirley Jones. They are living here to get away from it all. This way they can get along with each other without interference from anyone else.

We continued on our journey until we met Janice Howard and her three adopted children. Janice inherited a fortune and now owns a ranch in Argentina.

While going through Panama we met the former Marilyn Thiesen and her husband, Jim Moore, who is a naval officer there. Marilyn and Jim have three children.

We continued on until we reached Los Angeles. There we met Gretchen Sprague. She has not married yet, but now owns the famous Schwaab's drug-store there.

We boarded on the train at Fresno and went to Reno, Nevada, where we met Carol Hershman, who was on business there. Carol has become the second Dorothy Dix and is giving advice to the lovelorn.

In Salt Lake City we met Bernadine Girard who works for the Utah treasury. She got her needed experience while working in school.

In Denver, Colorado Franklin Whitaker is a research scientist working on the hydro-tomic germ killer.

While waiting at the station in St. Paul, Minnesota we met Leroy Hershman who is a motorcycle cop there. Leroy has not married yet.

We exchanged trains at St. Paul and headed for Chicago. When we reached Chicago we went to the famous Pump Room. There we met Bud Meyers and his wife, the former Betty Stowers. Betty is her husband's private secretary.

Back in Indiana. Mr. and Mrs. Terry Odle, the former Jeannette Allen, are now living on a farm west of Gifford. They have four children.

Maxine Neeley is a secretary for one of the lawyers in Rensselaer. She told us that Dorothy Hershman has an office job in Chicago.

Tom Korniak, who is now Jasper County Agent, and his wife are planning to visit some places of agricultural interest in the U. S.

Melba Risner, now Mrs. Melvin Zeiters, is a very happy and devoted mother to her twin sons.

Geraldine Smith is working in her father's post office.

Mary Hetrick and Nellie Hilton are supervisors at one of the General Mills testing kitchens.

Mrs. Douglas Thiesen, the former Donna Meyers, is a seamstress in Indianapolis. She makes many of the costumes used in the movies.

So ends the journey.

I, Franklin Whitaker, will my reserved seat on the Varsity deck to any sailor who would like a better view of the gaming sea.

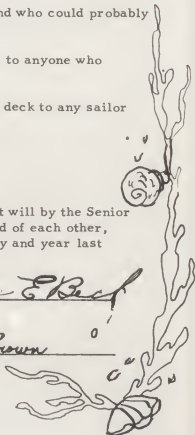

Signed, sealed, published and declared as and for our last will by the Senior class, the above named testator, in the presence of us and of each other, have subscribed our names hereto as witnesses in the day and year last aforesaid.

## Junior Story

It was smoother sailing for the Juniors with the experienced leaders at the helm. At the head of the ship was Barbara Burke, President. As Vice-President, Barbara Holladay; Secretary Joan Jensen; Treasurer, Donald Corbin; and Senators, Richard Allseitz and Marlene Clark.

They started the year out by being the winning half of the Echo Contest and therefore being guests at the Christmas party.

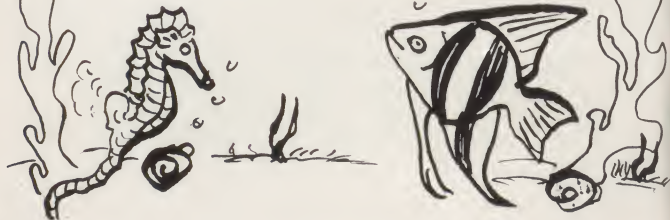

Raising money is the time consuming project of the Juniors so they got right down to business and took care of the refreshment stand at home football and basketball games.

Then the time came for their class rings, the most exciting experience of the year. They finally made their order, after much debating, and received their rings in February.

Then came the "Demon In The Dark". No it wasn't a sea serpent, it was the Junior class play. The journey started to get a little rough around play time, with just a few weeks to practice, but the play was a great success and will have a lasting impression on the memories of the Junior Class.

The year would not be complete if they did not honor the Seniors who were to get off at the next port, so they held a prom in May. The theme was an "Underwater Scene".

Thus ended a successful year for the Juniors. They are eagerly looking forward to the last phase in their journey, the Senior year.

## Sophomore Story

The Sophomores began their year with another sail added to their collection. Their officers were elected as follows: President, John Kopchik; Vice-President, Roy Bennett; Secretary, Ruby Howard; Treasurer, Doris Misch; and Senators, Allen Stembel and Eva Farmer.

They started their year by deciding the fate of the unlucky Freshman, it turned out to be fun, didn't it?

Not wanting to be left out, the Sophomores ordered class sweaters of maroon and sand.

The carnival was the big event of the year and they elected Doris Misch as their candidate for queen.

Next came the Echo Contest with the Sophomores showing their abilities in salesmanship by placing second.

So the happy and eventful Sophomore year drew to a close. It was a busy year and consisted of all the little petty, quarrels and happy reunions that make up the large system we call life.

The class sponsor was Mr. Shreve.

OFFICERS: President, John Kopchik; Vice-President, Roy Bennett; Secretary, Ruby Howard; and Treasurer Doris Misch.

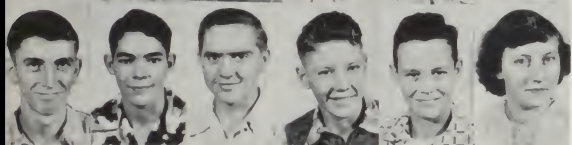

SENATORS: Eva Farmer and Allen Stembel.

**FRESHMEN**

## Freshman Story

The so-called "Green Freshies" started their first year of high school by having one sail placed on their ship. They had very capable officers who led them through their first year of what they thought would be harder than it really was. The officers were: Kenny Jones, President; Billy Holbrook, Vice-President; James O'Conner, Secretary-Treasurer; and Doyle Lee, Bethel Bailey, Senators.

They were the guinea pigs for the initiation, which was held in November. Though most of them were rather frightened at the thought of it, they soon found out it was a lot of fun.

Up to this time they were mostly lost in the "new world", but now they were beginning to feel more at home.

Since they failed to take advantage of their good salesmanship, they were one of the three losing classes that had to help give the Christmas party. This was the results of the Echo contest.

They made a good showing at the carnival, with Linda Green representing them as queen.

Being a large class, they needed a very capable sponsor, and taking this position was Mr. Cuddy.

So ended the various activities of the Freshman class of 1951-52. They've put their title of "Green Freshies" in cold storage for the class of next year.

## Library Club

To keep the "log" rolling, we have the Library Club. This is an organization made up of students who serve as librarians. They have officers just as any club--President, Archie Snyder; Secretary and Treasurer, Ruth Walker; and Leader of the Helpers, Doris Misch.

Each librarian is required to work in the library at least one day a week and perform the tasks expected of any librarian.

The club has been very active this year. They've conducted projects to make money for new library books and new shelves for magazines. This is a marvelous improvement to the library.

Members of the club are, from left to right:

**SEATED:**

Barbara Holladay, Delores Mahieu, Ruth Walker, Archie Snyder, Doris Misch, and Librarian Miss Brown.

**STANDING:**

Wetzel Howard, Phyllis Stewart, Esther Feliki, John Tillema, Kay McFarland, Joan Stanton, Aurelia Plaga, June Sculley, Gretchen Sprague, Robert Fenzel, Allen Stembel, John Kopchik, Bruce Howard, Sally Pucka, Alvin Hoffman, Tommy Gruve, and Joe McFarland.

## Senate

To keep our ship going we must have a crew or Senate. Our Senate is composed of twelve Senators, two elected from each of the upper six grades. They are organized to discuss and help solve problems arising in school.

Our Senate this year chose the movies for the year, helped with problems connected with the school paper, assembly programs, funds for Heart, Cancer, T.B., and Polio drives and many other similar problems.

Mr. Beck is the sponsor of the Senate this year with Wetzel Howard President, and Christine Jensen Secretary.

Members of the Senate are as follows:

LEFT TO RIGHT: Richard Cavinder, Mary Grube, Eva Farmer, Allen Stembel, Sponsor Mr. Beck, Wetzel Howard, Christine Jensen, Marlene Clark, Bethel Bailey, Doyle Lee, Anita Jensen, and Gene Holbrook. Richard Allseitz was absent.

## Chorus

Entertainment for our voyage is provided for by our chorus.

There are 28 members in our chorus this year and we have a new director, Mr. Littlejohn. The accompanists are Barbara Holladay and Sandra Jensen.

The chorus has had a full schedule, performing at the Christmas program, Festival, and Baccalaureate and have done an excellent job.

- SECOND ROW: Karen Williams, Loretta DeYoung, Joyce DeVries, Mildred Clark, Karen Williams, Donna Myers, and Carol Hershman.

## G. A. A.

We must have a strong and capable crew to handle our ship. This is the purpose of the Girls' Athletic Association.

The G.A.A. is based on a point system. The girls are given a certain number of points for major and minor sports. The major sports for this year are Volleyball and Basketball.

The Senior girls in G.A.A. were awarded sweaters with stripes for each year of membership.

Members of the club are, from left to right:

- FIRST ROW:** Phyllis Bays, Marianne Bays, Shirley Jones, Marlene Clark, Gretchen Sprague, Barbara Holladay, and Sponsor Miss Jackson.

## F. F. A.

The adventurers on our ship, seeking new farming lands, come with the Future Farmers of America.

The F.F.A. has been improving with the years. This year they entered corn, bean, and soybean shows. They also participated in contests of grain judging and parliamentary procedure.

Members of the club are from left to right:

## Basketball 1951-'52

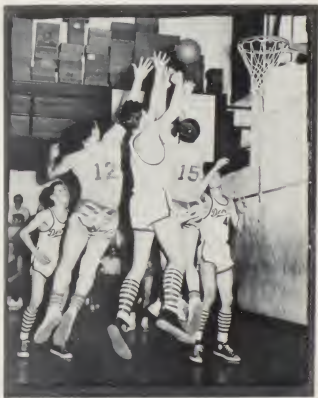

The Wheatfield Red Devils embarked this year with a crew of ten boys and Coach Williams doing the charting. After the first few battles it was known that the Devils needed more experience before they could equal the work done by the former crew. At the end of the season, however, the Devils made a terrific comeback to win the first game of the sectional tournament, only to be pushed out by Moracco in the second game.

The Wheatfield fans are expecting greater things from the boys next year though, because of this year's battle experience and the fact that there are sixteen skilled Freshmen in reserve.

## Cheerleaders

A lot of credit goes to the cheerleaders this year for their splendid work in encouraging the boys, even though they didn't have as much co-operation from the students as they had a right to expect. As you probably notice there is a new cheerleader, Ruby Howard, taking Marlene Clark's old place.

## Football 1951

This year we had twenty-one able bodied boys volunteer for football, thirteen of whom were Freshmen. Mr. Cuddy directed the crew with the able assistance of captain Archie Snyder. Even with such fine leadership the crew ran into shallow water at the beginning and lost every game they played right up to the last one, a game with Williamsport, which they won. The log book showed that the team had won only one game while losing 8.

Next year we are expecting a complete reversal of this year's scores since we have 19 boys with experience and a hunger for revenge to fight for the glory of the school.

## Softball 1951

In the fall of 1951, Wheatfield launched a new sport, softball, and though the seas were rough and tossed, the showing was promising. . Seventeen boys made up the crew, with Mr. Williams at the helm. They won only one game out of four but they were playing against experienced veterans, Tefft and San Pierre.

The batting average for at least four players was good, Therman Conley came up with .444, Frank Whitaker with .429, and Tom Korniak and Jerry Grube had .400. If we had had more batters with such ability, Wheatfield would have sailed through the season with a perfect record.

## Track 1951

The track team of 1951 had smooth sailing through all the season, to come up with the following reports: Six complete victories, fourth place in the Attica relays, in competition with ten other schools, and second in the Kankakee Valley Tournament.

Firman Walker set a record of 2:08.6 minutes for the half mile and 4:50.4 minutes for the mile, while Franklin Whitaker, Fred Foss, Bernard Mueller, and Firman set the record for the mile relay at 3:49.3 minutes.

The mile relay team, with firman running the mile and Franklin running the 440, went to the sectional where both Frank and Firman placed third and the relay team took first place with 3:47. The team ran its last race in East Chicago, where Fireman placed with 4:48.2, Frank placed with 55:8 in the 440, and the relay team took fifth place with 3:44.5, to end a very successful season.
